Curriculum Vitae

Born: 16th May 1971, Budapest, Hungary
Address: 1221, Budapest, 4 Hegybíró
e-mail: maulis@blackangel.hu
Mobile: +36-30-9511-341
Driving license: category "B"

Employment history

- 2005 - 2007 KÜRT LLC**
- Consultant**
- 2006 - 2007 I was a leader of a 4-5 member team in a security software implementation project. The Clients were a Hungarian bank, the Hungarian Government, an internet service provider and an international car parts company. My work was to design and plan the deployment, to coordinate the implementation and to fit the documentation into the Company Information Security System. These projects usually run under mixed environments: Windows, Novell, Linux.
- 2005 - 2006 I have processed a Backup System, a BCP and a DRP documentation for a Hungarian hotel, and for a leasing company. I was responsible to control the entire process from planning to implementation of the software, which used to be the CA ARCserve® Backup.
- 2006 A viability report for a centralized data warehouse for an international retail company in Hungary has been written by me. My role as a consultant was to optimize the needs of standards, costs, company directions and security functions.
- 2006 A migration has been planned from Linux Samba-Postfix System to Windows AD-Exchange for a Hungarian travel agency. My task was to design a new Windows environment.
- 2005 I led the process of setup of regulations mandating the use of Common Criteria in a calling tender of a secure governmental database system in Hungary. I supervised the security functions and wrote the security chapters in the documentation. I have been asked to design the CC Evaluation level.
- Development**
- 2007 I wrote the reporting part of the Data Defender software. Using the SQL 2005 Server Reporting Services a Data Defender Reporting System tool has been developed.
- 2006 - 2007 During the development of the new version of the Data Defender Reporting System a new user interface and the test plans have been designed by me. I was responsible to organise and supervise a testing team of 3-5 members.
- System Administration**
- 2007 I have configured a new network monitoring system using Nagios, MRTG and Linux. I have also organized the setup of the operation.
- 2005 - 2007 I have prepared the BCP and DRP documentation for the yearly maintenance of ISO 9001 & ISO 27001 auditing. I was also a contributor to the plans of information security regulations

- 2007 In frame of the preparation for ISO 27001 auditing a risk analysis system, called RiskManager has been developed using a FileMaker environment. It's using the KÜRT LLC's risk analysis method.
- 2005 I have designed and implemented a new backup and a fault tolerant system. Meanwhile I have redesigned the BCP and DRP systems.
- 2002 – 2005 Blackangel System Bt.**
- 2000 - 2004 I was teaching individuals, graphic designers, and packaging professionals for print production knowledge and software usage in corporate courses. The clients were advertising agencies and a pharmaceutical factory.
- 2000 - 2005 I was one of the developers of an image font for a Hungarian retail bank. I have implemented the design of PostScript/TrueType fonts for Windows and Mac OS systems. It was developed for Hungarian and Slav languages.
- 2000 I have developed a workflow management system, called Flow Control, for the SMB sector. The software implemented a network collaboration and a project approach.
- 1999 – 2000 Grey Budapest Advertising Agency - Technical Manager**
- 1995 – 1999 Kaméleon Reklám - System Administrator, Layout Editor**
- 1994 – 1995 HVG Press Kft - Layout Editor, Scanner Operator**
- 1993 – 1994 FORKA Kft. (Privát Profit) - Layout Editor**
- 1991 – 1993 Guttenberg Printig House - Printing Photographer, Scanner Operator**

Education

- 1989 - 1991 Typographic Photographer, Tótfalusi Kis Miklós Technical College and Trade School of Typography, Budapest
- 1985 - 1989 Graduation, Ilyés Gyula Highschool and Technical College of Economics, Budaörs

Languages

- English Provable oral and written skills
- German Basic level

IT Experiences

- Administration Windows, Macintosh, IRIX, Active Directory, Exchange, MS SQL, Oracle
- Development REALBasic, AppleScript
- Database System Microsoft SQL Server, FileMaker, MySQL

Work Experiences

- DRP, BCP, ISO 27001, Common Criteria system design & deployment
- Information Security Projects coordination
- Security, database, Office software development
